# EASY Top

## Excellent price

EASY Top is the bar cover that combines functionality and top-quality finish. Designed to provide better protection for your pool, it can be used all year round.

### 1 Easy to use

The cover is rolled up from the right using a crank or effortlessly using the ROLLTROT<sup>2</sup>® motor.

### Quick and easy installation

3 stainless steel tension pawls only to obtain a perfectly taut cover.

### 2 Extended life

Thanks to 2 interchangeable anti-abrasion strips located under the cover in line with the coping noses, bar passage PVC reinforcements and composite protective pads riveted under the tubes.

### 3 Leaf-proof and anti-lifting system along the lengths

The tension system on straps completely protects your pool in summer or winter against dust, leaves and other impurities.

### 4 NEW Removable unrolling strap.

(Once the bar cover has been deployed, the strap can be stored).

### 5 Strap with stainless steel quick attachment system.

This system makes it possible to very easily hook and unhook the straps.

### 6 Finish

Strap welded along the lengths

### 7 SUPERBLACK Évolution fabric

Great resistance to abrasion and tearing. 100% opaque: prevents photosynthesis phenomenon. An Albigès exclusivity.

### Economical solution

Less evaporation. Improved heat balance for longer, more affordable pool use. Cleaner water. An improvement on the solar cover, with its roller and the winterisation cover.

### Warning

This cover is not a substitute for common sense or personal liability. It does not aim to replace the vigilance of parents and/or responsible adults, which remains the essential factor in the protection of young children.
